PROFESSIONAL EXPERIENCE

Adobe, SF, CA – Finops Analyst Apr 2026 – Present

- Discovered and analyzed **\$2.5M+** in AWS and Azure cloud Savings; led RI, Savings Plans, and PTU analyses to identify cloud cost optimization opportunities and support FinOps decision-making.
- Built 4 Python and Excel FinOps dashboards; automated monthly cloud spend reviews and reporting, reducing reporting time by **6+ hours per month** leveraging tools like Claude and Cursor.
- Partnered with engineering teams to validate cloud cost drivers; supported FinOps reporting, AI automation initiatives, and documented cloud cost optimization workflows for leadership visibility.

Creative Business Solutions, Bowie, MD – Project Management Co-op Nov 2025 – Mar 2026

- Gathered requirements and developed technical specifications for data visualization solutions; consolidated 5+ enterprise platforms into Power BI dashboards, streamlining workflows by 4 hours weekly through process improvement.
- Authored user stories and developed interactive process mapping frameworks; drove 30% increase in stakeholder engagement across 8+ strategic deliverables through effective written and oral communication.
- Analyzed project performance metrics using Excel; identified root causes of delays and implemented automated tracking systems that reduced project delays by 15%.

Arizona State University, Polytechnic, AZ – Grader (Project Management) Feb 2024 – Dec 2025

- Guided Project Management course students on applying SAP concepts within project lifecycles, including ERP process flows, reporting structures, and integration considerations in planning and execution phases.
- Supported Agile-based project coursework by demonstrating how systems align with sprint planning, backlog prioritization, and milestone-driven ERP implementations.

Deloitte Consulting, Mumbai – Consultant Jan 2021 – Dec 2023

- Analyzed **stakeholder** requirements and engineered scalable solutions using **AWS, Azure, and GCP**, optimizing Jira workflows and systematic issue resolution, accelerating delivery velocity by 15%; created process maps and technical specifications, drove roadmapping, and risk management across SDLC milestones, enhancing reporting accuracy by 30% with **DBT and Excel**; aligned outcomes with change management and OKR/KPI reporting frameworks.
- Developed functional specifications and data-flow diagrams for ETL pipelines using SAP BODS/BW/4HANA, Databricks, **R**, and **Go**, automating Power **BI** deployment with quality assurance protocols, and aligning outcomes with OKR/KPI reporting frameworks for key stakeholders, including **metrics** and BI analysis.
- Analyzed business processes for inventory, financial, and procurement operations using Python, SQL, and R; deployed optimization algorithms with rigorous testing, generating 7.5% cost savings.

Information Techserve Pvt. Ltd, Mumbai (Technology Analyst) May 2017 – May 2020

- Analyzed stakeholder requirements, created functional specifications and data-flow diagrams for the Foodmantic project startup, and collaborated with stakeholders to deliver a user-friendly web interface.
- Conducted data analysis on user behavior and feature adoption; generated insights that informed release prioritization and scenario planning for future releases.

EDUCATION
